**1. About Equity Trustees Limited, Prodigy Investment Partners Limited and Flinders Investment Partners Pty Limited**

<i>The Responsible Entity</i>	<p><b>Equity Trustees Limited</b></p> <p>EQT, a company listed on the Australian Securities Exchange, is the Fund's Responsible Entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today EQT is a dynamic financial services institution which will continue to grow the breadth and quality of products and services on offer.</p> <p>EQT's responsibilities and obligations as the Fund's Responsible Entity are governed by the Fund's</p>
-------------------------------	---

	<p>constitution ("Constitution"), the Corporations Act 2001 (Cth) ("Corporations Act") and general trust law. As Responsible Entity, EQT is solely responsible for the management of the Fund. EQT has delegated the investment management functions to Prodigy Investment Partners Limited ("Prodigy" or "Investment Manager"). EQT has appointed RBC Investor Services Trust Registry Operations ("RBC") as the custodian and administrator of the Fund.</p>
<i>The Investment Manager</i>	<p><b>Prodigy Investment Partners Limited</b></p> <p>Prodigy is a multi-boutique investment firm, established in June 2014. It is owned by Euroz Limited, an ASX listed financial services company, and Prodigy senior staff. Prodigy seeks to partner with talented investment teams, under a business model that enables a clear focus on investing and is aligned with the interests of the firm's clients. Prodigy has appointed Flinders Investment Partners Pty Limited as the Sub-Investment Manager of the Fund, to make the day-to-day investment management decisions.</p>
<i>The Sub-Investment Manager</i>	<p><b>Flinders Investment Partners Pty Limited</b></p> <p>Flinders Investment Partners Pty Limited ("Flinders" or "Sub-Investment Manager") is a boutique investment manager established in June 2015. The business is a subsidiary of Prodigy. The team is made up of three Investment professionals with deep Australian equity market experience particularly in the emerging companies sector.</p> <p>The team uses detailed financial analysis combined with company, industry and market intelligence to select stocks and build diversified portfolios. It differentiates itself from other managers with the skill of its investment professionals, disciplined application of its rigorous investment process, an ability to respond quickly to investment opportunities and an investment philosophy and business structure that ensures that Flinders is aligned with its client's objectives.</p>

## 2. How the Fund works

The Fund is a registered managed investment scheme and is governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Investors receive units when they invest in the Fund. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however it does not give the investor an interest in any particular asset of the Fund.

<i>Applying for units</i>	<p>Investors can acquire units by completing the application form ("Application Form") accompanying this PDS or by making an application through the mFund settlement service ("mFund") by placing a buy order for units with your licensed broker. The minimum initial investment amount for the Fund is \$25,000. The Responsible Entity has the discretion to accept a lower initial or additional investment amount and to apply lower minimum balance and minimum withdrawal amounts, for some investors, at any time without prior notice to investors.</p> <p>The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day (as defined in the Glossary within the Reference Guide) is in general terms, equal to the net asset value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). The Application Price will vary as the market value of assets in the Fund rise or fall.</p>
<i>Making additional investments</i>	<p>You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Application Form or by making application for units through mFund. The minimum additional investment into the Fund is \$1,000 (unless otherwise determined by the Responsible Entity).</p>
<i>Distributions</i>	<p>The Fund usually distributes income half yearly at the end of June and December. Distributions are calculated on the last day of each period end (30 June and 31 December), and are normally paid to investors within 14 days of the period end; however the distribution at 30 June may take longer. EQT may amend the distribution frequency without notice. An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period and the distributable income.</p> <p>In some circumstances, where an investor makes a large withdrawal request (5% or more of the units on issue at the start of the relevant distribution period), their withdrawal proceeds may be taken to include a component of distributable income. Investors can have their distribution reinvested or paid to a nominated bank account. Investors who do not indicate a preference will have their distributions automatically reinvested. There is no buy spread on distributions that are reinvested.</p> <p>Indirect Investors should review their IDPS guide for information on how and when they receive any income distribution. New Zealand investors can only have their distribution reinvested (refer to the Flinders Emerging Companies Fund – Class B New Zealand Investors Information Sheet before investing in the Fund for further information).</p>

<i>Access to your money</i>	<p>Investors in the Fund can withdraw their investment by completing a written request to withdraw from the Fund and mailing or faxing it to:</p> <p>RBC Investor Services Trust Registry Operations, GPO Box 4471, Sydney, NSW 2001, Australia</p> <p>Fax: 02 8262 5492 or by making a withdrawal request through mFund by placing a sell order for units with your licensed broker.</p> <p>There is no minimum withdrawal amount. Once we receive a withdrawal request, we may act on the instruction without further enquiry if the instruction bears an account number or investor details and (apparent) signature(s), or the investor's authorised signatory's (apparent) signature(s) or if the withdrawal is received via mFund.</p> <p>EQT will generally allow investors in the Fund to access their investment within 7 days of receipt of a withdrawal request by transferring the withdrawal proceeds to their nominated bank account or, where the request is received via mFund, to the investor's licensed broker. However, in some circumstances (such as when there is a freeze on withdrawals) you may not be able to withdraw your funds within this usual period. Moreover, the Constitution allows EQT to make payment up to 21 days after receipt of a request (which may be extended by a further 30 days in certain circumstances). The price at which units are withdrawn ("Withdrawal Price") is determined in accordance with the Constitution. The Withdrawal Price on a Business Day, is in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). The Withdrawal Price will vary as the market value of assets in the Fund rise or fall. We reserve the right to fully redeem your investment upon 30 days' notice if your investment balance in the Fund falls below \$20,000 (or as determined by the Responsible Entity) as a result of processing your withdrawal request. EQT can deny a withdrawal request in certain circumstances, including where accepting the request would cause the Fund to cease to be liquid or where the Fund is not liquid (as defined in the Corporations Act). When the Fund is not liquid, an investor can only withdraw when EQT makes a withdrawal offer to investors in accordance with the Corporations Act. EQT is not obliged to make such offers.</p> <p>If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator.</p>
<i>Unit pricing discretions policy</i>	<p>EQT has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available to investors free of charge on request to EQT.</p>
<i>Additional information</i>	<p>The Fund is not currently a disclosing entity as defined by the Corporations Act. If the Fund becomes a disclosing entity (generally this will occur when the Fund has 100 investors or more), it will be subject to regular reporting and disclosure obligations. Investors (but not Indirect Investors) will have a right to obtain a copy, free of charge, of any of the following documents:</p> <ul style="list-style-type: none"> <li>▪ the most recent annual financial report;</li> <li>▪ any half yearly financial report lodged with ASIC after the lodgement of that annual financial report but before the date of the PDS; and</li> <li>▪ any continuous disclosure notices lodged with ASIC after that financial report but before the date of this PDS.</li> </ul> <p>These documents can also be obtained from or inspected at an ASIC office.</p>
<i>Further reading...</i>	<p>You should read the important information in the Reference Guide – Class B "Investing in the Fund", "Managing your investment" and "Withdrawing your investment" sections, about:</p> <ul style="list-style-type: none"> <li>• application cut-off times;</li> <li>• application terms;</li> <li>• cooling-off rights;</li> <li>• appointing an authorised signatory;</li> <li>• reports that are made available;</li> <li>• withdrawal terms; and</li> <li>• withdrawal restrictions,</li> </ul> <p>before making a decision. ### 3. Benefits of investing in the Fund

The Fund is an actively managed portfolio that principally invests in Australian listed companies outside the S&P/ASX 100 Index and cash. Benefits of investing in the Fund include:

- Access to the expertise of a specialist investment boutique structure;
- Active management to create significant opportunities for above market returns over a medium to long time frame by exploiting pricing inefficiencies more common in shares outside the S&P/ASX 100 Index;
- Diversified portfolio of stocks that spreads investment across a variety of sectors & companies; and
- Regular reporting to keep you up to date on your investments.

### 4. Risks of managed investment schemes

All investments carry risk. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets which may potentially provide the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets you may have and your risk tolerance. The Responsible Entity, the Investment Manager and the Sub-Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the investments will vary. The level of returns will vary and future returns may differ from past returns. You may lose money by investing in the Fund and your investment in the Fund may not meet your objectives. Laws affecting managed investment schemes may also change in the future.

In addition, the Responsible Entity, the Investment Manager and the Sub-Investment Manager do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial advice, you should contact a licensed financial adviser.

<i>Concentration risk</i>	Concentration risk is the risk that poor performance in a group of securities common to a particular section of the market will significantly affect the performance of the Fund. This risk is relevant for the Fund as it will seek to focus on investments in companies that are outside the top 100 companies listed on the ASX by market capitalisation, often referred to as the 'Small Cap' sector. Positions may be concentrated and may result in the returns of the Fund being highly dependent on the returns of few exposures.
<i>Derivatives risk</i>	In the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities will involve 'basis risk', which refers to the possibility that derivative positions may not move perfectly in line with the physical security. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security. Other risks associated with derivatives include that they can lose value because of a sudden price move or because of the passage of time, potential illiquidity of the derivative, that the Fund cannot meet payment obligations as they arise, and that the counterparty to any derivative contract does not meet its obligations under the contract.
<i>Investment selection risk</i>	Flinders uses an investment selection process to identify investment opportunities which it believes are most likely to outperform the Benchmark. There is a risk that these investments will not perform in line with Flinders expectations.
<i>Investment specific risk</i>	There may be instances where an investment in which the Fund invests will fall in price because of investment specific factors (for example, where a company's major product is subject to a product recall). The value of investments can vary because of changes to management, product distribution, investor confidence, internal operations or the company's business environment.
<i>Sector selection risk</i>	Flinders may make poor investment decisions resulting in sub-standard returns (for example, where Flinders gains exposure to a sector which significantly underperforms relative to other sectors).
<i>Small companies' risk</i>	<p>The Fund will generally invest in companies that have lower than average market capitalisation. Small companies:</p> <ul style="list-style-type: none"> <li>▪ may have less liquid and more volatile securities, compared to those of larger companies;</li> <li>▪ may be recently established entities, and as such publicly available information on their business activities may not be as easy to obtain compared to companies with larger market capitalisation</li> <li>▪ may be resource companies which have significant project risk</li> <li>▪ may be biotechnology companies which have significant development risk and/or are not generating commercial revenues; and</li> <li>▪ can be engaged in new-to-market concepts which may be speculative in nature.</li> </ul> <p>For these reasons this sector may experience volatility and reduced liquidity.</p>
<i>Further reading...</i>	You should read the important information in the Reference Guide – Class B “Additional risks of managed investment schemes” section about additional risks that apply to managed investment schemes before making a decision. Go to the Reference Guide – Class B at <a href="http://www.flindersinvest.com.au">www.flindersinvest.com.au</a> or <a href="http://www.egt.com.au/insto">www.egt.com.au/insto</a> . The material relating to the additional risks may change between the time when you read this PDS and the day when you acquire the product.

## 5. How we invest your money

**Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment time frame.**

<i>Investment objective</i>	<p>Designed to provide medium to long term capital growth potential and seeks to outperform the S&amp;P/ASX Small Ordinaries Accumulation Index by 5% per annum before fees over rolling three year period.</p> <p>Please note the investment objective is not intended to be a forecast. It is only an indication of what the investment strategy aims to achieve.</p>
<i>Benchmark</i>	S&P/ASX Small Ordinaries Accumulation Index.
<i>Minimum suggested</i>	The minimum suggested time frame for investment in the Fund is five years.

<i>timeframe</i>	
<i>Risk level of the Fund</i>	High. There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.
<i>Investor suitability</i>	Designed for investors seeking medium to long term capital growth potential by investing in a diversified portfolio of stocks comprising listed companies that are outside the S&P/ASX 100 Index.
<i>Investment process</i>	<p>The Manager's investment philosophy is based on the following beliefs:</p> <ul style="list-style-type: none"> <li>• Markets are inefficient and hence an investment process utilising active stock picking can deliver superior returns (compared to the Index).</li> <li>• Growing companies generate the most value for shareholders. A company which is able to grow earnings sustainably is able to reinvest for growth initiatives and therefore shareholders benefit from both capital growth and potentially income growth.</li> <li>• Proprietary research is a key requirement to unearth attractive investment opportunities, since companies outside of the S&amp;P/ASX 100 universe are characterised by a diverse range of industries, business structures and management capabilities.</li> <li>• Risk management is critical in ensuring that we achieve more gains than losses and hence outperform. Specifically, we evaluate where the allocation of the risk budget would lead to gains and when it would end in losses.</li> <li>• The agility of the Manager is important. This applies in two ways – the discipline to maintain funds under management to a level that does not affect the ability to implement investment strategies; and, the ability to respond quickly to take advantage as opportunities arise.</li> </ul> <p>Therefore, our investment process has a growth bias, is focused and disciplined in its application and proprietary research is its cornerstone. In practice, our investment process seeks to answer the following questions:</p> <ol style="list-style-type: none"> <li>1. What is the company's growth potential? In assessing the growth options we identify the key drivers. Growth can be either: organic; by acquisition; or cyclical. We also consider the sustainability of growth.</li> <li>2. Can management deliver? We determine whether a management team can successfully execute a business strategy to exploit growth.</li> <li>3. What is the company's financial strength? Through our integrated financial modelling we deduce whether the company can support our expectations for growth.</li> <li>4. What are the risks? Through our company, industry and market knowledge we deduce whether any material risks are at play and whether they can be managed.</li> <li>5. What price should we pay? We derive a company valuation using our detailed financial modelling. This value is compared to the prevailing share price as well as all other company valuations in the universe of stocks under coverage.</li> </ol> <p>Once the stock analysis is completed, the investment characteristics are compared across all companies within our coverage universe to determine its suitability for the portfolio. The outcome is a portfolio of high quality companies, with strong growth opportunities, which are attractively priced.</p>
<i>Investment guidelines</i>	<p>The Fund will invest in a diversified portfolio of stocks comprising listed (or soon to be listed companies) companies that are outside the S&amp;P/ASX 100 Index (90%-100% of the Fund) with the remainder of the Fund in cash (0%-10%). Flinders will use the following guidelines when selecting investments for the Fund:</p> <ul style="list-style-type: none"> <li>▪ Minimum of 30 companies;</li> <li>▪ Maximum of 60 companies;</li> <li>▪ Maximum shareholding of 10% in any one listed company;</li> <li>▪ No more than 10% of the portfolio in any one company;</li> <li>▪ A company's holding in the portfolio will not exceed 5% (overweight) above or less than 5% (underweight) below the benchmark weight;</li> <li>▪ Where securities subsequently become part of the S&amp;P/ASX 100 Index, they will be sold within 12 months following the inclusion of the securities in the S&amp;P/ASX 100 Index;</li> <li>▪ The Fund may use derivatives for risk management purposes, as substitutes for physical securities; and</li> <li>▪ The Fund will not be geared.</li> </ul> <p>Due to movements in the market or similar events, the guidelines set out above may not be adhered to from time to time. In these circumstances, Flinders will seek to bring the Fund's investments within the guidelines within a reasonable period of time.</p>
<i>Labour, environmental, social and ethical</i>	ESG issues are important in the investment process. Flinders will assess companies on ESG issues where they are relevant to that company's investment risk profile.

## considerations

**Fund performance** Up to date information on the performance of the Fund will be available by calling Prodigy on 1300 074 894 or visiting the website [www.flindersinvest.com.au](http://www.flindersinvest.com.au) or [www.eqt.com.au/insto](http://www.eqt.com.au/insto).

## 6. Fees and costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed investment fee calculator to help you check out different fee options.

The information in the following table can be used to compare costs between this and other managed investment schemes.

Fees and costs are deducted from the assets of the Fund and reduce the investment return to investors.

Type of fee or cost	Amount
<b>Fees when your money moves in or out of the Fund</b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Termination fee	Nil
<b>Management costs<sup>1</sup></b>	
The fees and costs for managing your investment	1.2% <sup>2</sup> p.a. (inclusive of GST less RITC) of the NAV of the Fund
Performance Fee Expense <sup>3</sup>	20% (plus GST less RITC) of the investment return above the performance hurdle is payable to Flinders as an expense of the Fund

<sup>1</sup> Management costs quoted are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC) at the prescribed rate, which is currently either 55% or 75% (depending on the nature of the fee or expense).

<sup>2</sup> This fee can be negotiated. See "Differential fees" below.

<sup>3</sup> See 'Performance fee' below for more information on the performance fee

### Additional explanation of fees and costs

<i>What do the management costs pay for?</i>	The management costs include responsible entity fees, investment management fees, custodian fees, administration fees and other expenses. The management costs are calculated and accrued daily based on the NAV of the Fund. The accrued fees are paid in arrears from the Fund at the end of each month. The management costs reduce the NAV of the Fund and are reflected in the unit price.
<i>Performance Fee Expense</i>	<p>The management costs for the Fund include a performance fee. The performance fee is an expense of the Fund. The method for calculating the performance fee expense for each 6 month period ending 30 June and 31 December ("Performance Fee Periods") is as follows:</p> <ul style="list-style-type: none"><li>For each Business Day, the daily investment return of the Fund (net of capital inflows) is calculated to determine whether the performance hurdle for the Business Day has been exceeded.</li><li>The performance hurdle is the daily percentage movement in the benchmark plus 1.2% p.a. calculated on a daily basis.</li><li>The daily investment return of the Fund (net of capital inflows) is calculated by dividing the amount of the gross asset value of the Fund for the Business Day, by the gross asset value for the previous Business Day.</li><li>The daily performance fee amount is then calculated at 20% (plus GST less RITC) of the difference between the daily investment return of the Fund and the performance hurdle. The daily performance fee amount can be a positive or a negative amount depending on whether or not the performance hurdle has been exceeded.</li><li>The daily performance fee amount is accrued and, where the aggregate amount is positive, the amount is reflected in the daily unit price as an expense provision.</li><li>A positive accrued performance fee is not payable unless the return of the Fund is positive for that</li></ul>

	Performance Fee Period. If no performance fee is payable to the Investment Manager for the period, then the accrued performance fee, positive or negative, will be carried forward into the next Performance Fee Period. This means that negative performance of the Fund must be made up before a performance fee is payable.
<i>Buy/Sell Spread</i>	The Buy/Sell Spread reflects the estimated costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is an additional cost to the investor but is incorporated into the unit price and not separately charged to the investor. The Buy/Sell Spread is paid into the Fund and not paid to EQT, Prodigy or Flinders. At the date of this PDS, the estimated Buy Spread is 0.35% upon entry and the estimated Sell Spread is 0.35% upon exit.
<i>Can the fees change?</i>	Yes, all fees can change without investor consent. In most circumstances, the Constitution defines the maximum fees that can be charged. We will generally provide investors with at least 30 days' notice of any proposed change to the Responsible Entity fee. Expense recoveries represent a reimbursement from the Fund to recover those expenses we incur in connection with the day-to-day operation of the Fund. We have the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses may increase or decrease the management cost accordingly. Expense recoveries and Buy/Sell Spreads may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.
<i>Differential fees</i>	The Responsible Entity may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors.
<i>mFund</i>	Warning: if you are transacting through mFund your stockbroker or accredited intermediary may charge you additional fees (see their Financial Services Guide).

### Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a one year period. You should use this table to compare this product with other managed investment products.

Example – Flinders Emerging Companies Fund – Class B		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR <sup>1</sup>
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
Plus Management costs	1.2% p.a.	<b>And</b> , for every \$50,000 you have in the Fund you will be charged \$600 each year.
<b>Equals</b> Cost of fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees from: <b>\$600<sup>2</sup></b> <b>What it costs you will depend on the fees you negotiate.</b>

<sup>1</sup>This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

<sup>2</sup>Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread or the performance fee.

ASIC provides a fees calculator on its website [www.moneysmart.gov.au](http://www.moneysmart.gov.au), which you could use to calculate the effects of fees and costs on your investment in the Fund.

## 7. How managed investment schemes are taxed

**Warning: Investing in a registered managed investment scheme (such as this Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.**

The Fund is an Australian resident for tax purposes and does not pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund.

- I/We acknowledge and agree that where the Responsible Entity, in its sole discretion, determines that:
  - I/we are ineligible to hold units in a Fund or have provided misleading information in my/our Application Form; or
  - I/we owe any amounts to Equity Trustees, then I/we appoint the Responsible Entity as my/our agent to submit a withdrawal request on my/our behalf in respect of all or part of my/our units, as the case requires, in the Fund.
- **For New Zealand applicants:** I/we have read the terms of the offer relating to New Zealand investors, including the New Zealand warning statement

## Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, we are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. Exempt investors should attach a copy of the certificate of exemption. For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.

**When you sign this Application Form you declare that you have read and agree to the declarations above.**
