Flinders Investment Partners is a boutique investment partnership specialising in Australian listed emerging companies.

Flinders brings together experienced and talented investors in a business model that has direct alignment to the interests of our clients. The Flinders' team are both partners in the business and direct investors in the Fund.

Flinders is a partner boutique of investment house Prodigy Investment Partners.

### Fund Investment Objective

To build a portfolio of quality, growing smaller companies that will outperform the Benchmark by 5%pa (before fees) over rolling 3 year periods.

### Investment Philosophy and Approach

We believe that investing in smaller companies can produce excellent returns for investors. However, smaller companies can exhibit significant share price volatility. Therefore an active, research based approach that assesses risk and investment fundamentals is imperative.

We believe that growing businesses generate the most value for shareholders, especially if they can be identified early in their growth phase.

We believe that the way to identify these attractive companies is to undertake significant, rigorous and consistent proprietary research and financial analysis. An active company visitation program is a vital part of this research.

We are resolute in our focus on risk management in order to maximise gains and limit losses, leading to higher returns for our investors.

We are committed to be agile - the discipline to limit our size to a level that allows us to fully exploit investment opportunities across the smaller companies universe, and a mindset to be responsive in our decision making process.
